Columbia, SC 29211

Dear Sir or Madam:

I received the Notice of Filing and Hearing Docket No. 2004-357-WS for Carolina Water Service Inc. Application for adjustment of rates.

After all the turn-moil caused by this company the first time they raised their rates it is unbelievable that they are trying to do it again. This action is unconscionable. As a River Hills resident for over 10 years my water bill has been at least double that of anywhere I have lived in the USA for the same service.

Either this company's management is inept, the system inefficient or they are just plain greedy.

Don't let them raise the rates.

William C. Wolfe
